Sample OET Letter for Nurses: Referral Example

Scenario: You are referring a patient to a specialist for ongoing respiratory issues.

Sample Letter:

Dear Dr. Johnson,

I am writing to refer Mr. Robert Smith, a 58-year-old patient whom I have been caring for over the past six months, regarding his persistent respiratory symptoms.

Mr. Smith presented with a three-month history of cough, shortness of breath, and wheezing. He has a background of mild asthma, but his symptoms have worsened despite adherence to inhaler therapy. Recent examinations revealed decreased breath sounds and a chest X-ray indicating possible bronchial inflammation.

He reports ongoing episodes of wheezing and occasional chest tightness, which interfere with his daily activities. His vital signs are stable, but spirometry results show decreased airflow consistent with obstructive lung disease.

Current management includes inhaled corticosteroids and bronchodilators. However, his symptoms persist, and I believe specialist assessment is necessary to rule out other underlying conditions and optimize treatment.

Please review his case and advise on further investigations or alternative therapies. I have attached relevant clinical notes and recent test results for your reference.

Thank you for your assistance.

Yours sincerely,

Differentiation Challenges

Although the program is designed to be flexible, some educators find that it does not fully address the needs of diverse learners, such as English language learners or students with learning disabilities. Additional scaffolding or modified activities might be necessary to ensure equitable access.
